Regulator: SAMA

**Readiness Score: 37%**

## Simulation Statistics

| Metric              | Value                                     |
|---------------------|-------------------------------------------|
| rules_source        | Regulatory_Rules_Features_Extraction.xlsx |
| gpt_cases_analyzed  | 6                                         |
| compliant_cases     | 0                                         |
| non_compliant_cases | 4                                         |
| manual_review_cases | 2                                         |
| critical_violations | 0                                         |
| high_violations     | 7                                         |

## Executive Summary

## Risk Explanation

## Recommendations

- Complete the KYC verification process using trusted sources before processing further transactions.
- Hold or suspend the current transaction until KYC is verified.
